### **ALLOWANCE**

1. This allowance is responsive to Applicant's amendment filed June 21, 2006.

Claims 1-18, 28, 29, and 32-35 have been cancelled.

Claim 19 has been amended.

Claims 19-27, 30, and 31 are pending.

### ***Terminal Disclaimer***

2. The terminal disclaimer filed on June 21, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patents granted on application no. 09/849,448 has been reviewed and is accepted.

The terminal disclaimer has been recorded.

### ***Reasons for Allowance***

3. Claims 19-27, 30, and 31 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Cunningham (U.S. Patent No. 6,029,139) gathers required promotion model parameters from various processes/inputs/outputs in a predefined format, which is indicative of the use of templates. Cunningham does not expressly teach that the templates are actively presented to the user in a sequential fashion. Official Notice has been used to address the old and well-known concept of using interactive modeling to present a user with templates that are actively presented to the user in a sequential

Art Unit: 3623

fashion to gather model inputs. Still, neither Cunningham nor the prior art of record teaches or suggests the combination of presenting a user with a sequence of data entry templates to enter the recited optimization scenario details, presenting optimum promotion events and optimum supplier offers, and then performing the following steps in the prescribed order: first providing a promotion event configuration template, for prescribing potential promotion events; second providing a supplier offer configuration template, for prescribing potential supplier offers; and third providing a promotion scenario configuration template, for associating the potential promotion events to the products, wherein said third providing comprises: specifying a forward buy method, enabling/disabling certain ones of the potential supplier offers, adding rules and constraints to the optimization scenario, and indicating store merchandising capacities. This combination of limitations is recited in claims 19-27, 30, and 31; therefore, claims 19-27, 30, and 31 are deemed to be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
